

Ceiling dehumidifier RYDZ-240A

- Microcomputer automatic humidity control
- The current environment temperature and humidity LCD liquid crystal display
- Efficient automatic frost system, low temperature
- 1-24 hours regular shutdown function
- Window-opening hydrophilic aluminum foil fin, for enhanced heat exchange energy efficiency
- Intelligent control system, you can quickly determine the cause of the malfunction
- Centrifugal fan, strong wind, uniform air flow, low noise

Dehumidifying capacity(@30°C,80%)	240L/D
Power consumption	4.9KW
Voltage	400V/50Hz
Current	10A
Wind pressure	100-150Pa
Appliedtemperature	5°C-38°C
Air outlet size	210* 235mm
Air inlet size	430* 402mm
Body size	1150* 780* 730mm
Filters	G4 efficiency
Compressor	Panasonic/Dakin/Mitsubishi
Protection	Delayed startup for protection
Waterproof Rank	IPX04
